Why are only 136 countries included in the analysis? ^[1]

Submitted by Till on Sun, 02/08/2015 - 22:00

By mandate, PARIS21 ought to focus on developing countries. Hence, the *PARIS21 metabase* includes only countries that are classified as up to upper-middle income countries following the Development Assistance Committee (DAC) classification of the OECD of 2014. Further, only countries with full UN membership status that are not OECD countries are monitored.
